Orthodontia Lifetime Max	\$2,000 per individual	\$2,000 per individual

**Annual Max waived for participants and dependents under age 19 for non-orthodontic services.*

You will want to make sure your dentist is a Delta Dental provider. To locate a Delta Dental provider, visit their online Consumer Toolkit[®] at www.deltadentalmi.com. The online Consumer Toolkit[®] enables you to review your eligibility status, claims information, benefits, and much more. Your Delta Dental provider will confirm your eligibility with your Social Security Number so you will no longer have to worry about another dental card.

Since Delta Dental of Michigan will be handling your claims and eligibility information, they will also be handling any information relating to pre-determination reviews. While pre-determination reviews will be voluntary, we strongly suggest contacting Delta Dental at 1-800-524-0149 for a review prior to receiving any major extensive dental treatment, including crowns, periodontics, dentures, bridgework, orthodontics, etc. This review will let you and your dentist know what will be covered and how much the Plan will pay before your treatment begins to avoid any surprise bills after your treatment.

Questions about your dental provider or general benefit information? Contact the Plan Administrative Office at **248-585-9610**, Monday - Friday, 8:00 a.m. - 4:30 p.m. or email questions@mufcwadmin.com.
